

CALIFORNIA DIALOGUE ON CANCER

Preventing Cancer & Saving Lives through Collaboration

CDOC Biennial Stakeholder Conference 2014

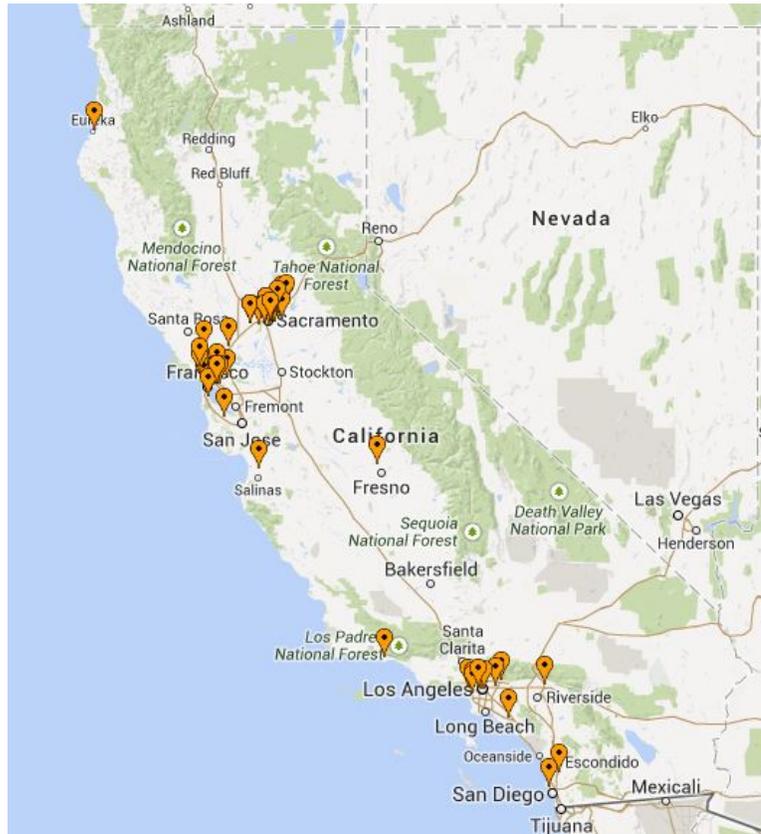

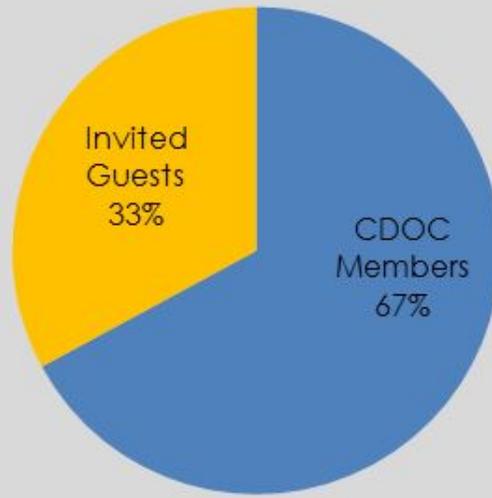

The CCCP and CDOC hosted the 2014 CDOC Biennial Stakeholder Conference on June 9th at the Holiday Inn, Sacramento Capital Plaza. It was a very successful and productive meeting. We had the opportunity to share and discuss the latest topics in cancer control with leading cancer control professionals and community members. The main topics of the conference included coalition priorities and successes, the cancer burden in California, policy, systems & environmental change as it relates to cancer control and health care reform as a tool to achieve cancer control priorities. We also kicked off the state cancer plan revision process by collecting invaluable feedback from participants during the working session.

There were a total of **75** participants at the conference, with the below composition and geographical representation.

CDOC MEMBERSHIP RENEWAL

It is time to renew your CDOC membership. As you learned at the conference, CDOC has made tremendous strides in the fight against cancer. The continued work of CDOC is crucial in reducing cancer suffering and mortality in our state. We look forward to our continued collaboration in helping to achieve this goal.

Please renew your membership here:
